

## 2020 Platinum Sponsors

## 2021 FFA Crop Management Challenge

### Chapter Agreement

The Chapter Agrees To meet the following guidelines:

1. The Chapter will attend virtual orientation to be held in December 2020.
2. The Chapter will attend Agro Expo August 17<sup>th</sup> from 8:00 am to 4:00 pm. and will be stationed at their plot to answers questions of attendees. The team will be responsible to provide their own tent/pop up.
3. The chapters will present a 10-minute presentation to the judges at their booth and the judges will be allowed 5 minutes for questions/clarifications.
4. Each Chapter/Team Reporter is responsible to post information to the chapter website and social media at least 6 times during the project.
5. The chapter/team will complete a post contest questionnaire to allow for improvement in the future.
6. The Chapter/team will submit the final report 14 days after yield data is provided.

The North Central Research Station, the AgroExpo and various sponsors will provide the following:

1. Training dealing with:
  - a. Contest Introduction and Explanation
  - b. AgroLiquid Products
  - c. Product placement options
  - d. Reading a Soil Test
  - e. Hybrids being used
2. A current soil test and all relevant information needed to assist in making nutrition decisions.
3. Photos and descriptions of plot happenings throughout the season.
4. AgroLiquid catalog and corresponding product information.
5. Yield Data and corresponding harvest and production information.

We highly recommend recruiting a local agronomist/producer to serve as a resource to the team to assist in making these decisions. It would be very helpful for this person to attend the virtual orientation in December as all nutrition and agronomy choices will be due by January 20<sup>th</sup>.

We the undersigned agree to meet all of the obligations stated above in completing the Crop Management Challenge Contest. We understand that many sponsors have invested significant time and money into this event and will make our best effort to make this a worthwhile event for all.

Chapter \_\_\_\_\_

Crop desired corn or soybeans. \_\_\_\_\_

If all of your first choice is full would you be willing to switch crops? \_\_\_\_\_
